

Report on "Special Drive for collection of waste in RRCAT colony" on 07 & 08-Nov-2020

Every year several cleanliness drives are undertaken in RRCAT to keep the campus clean as well as green. Due to COVID-19 pandemic a special drive for the collection of odd size wastes (old furniture, household items like carton boxes, wooden boxes etc.) was organised on 07-11-2020 (Saturday). The residents were informed in advance by circular issued by administration on mail-all about the schedule of collection of the waste. This drive was in addition to the regular house-to-house collection of dry and wet wastes. A tractor trolley was moved in each lane of the colony, including the CISF residential area, as per the timings mentioned in the circular issued for the purpose. Two banners with "Swachhata He Seva" written in English as well as Hindi languages were prominently displayed on the trolley for easy identification by the residents. The collection drive was continued on the next day as well i.e. 08-11-2020 (Sunday) to give one more chance to dispose-off the waste from those who missed on Saturday. A total of ten tractor trolleys of waste was collected during the drive. The waste collected was segregated and disposed at designated place in the RRCAT colony for collection by the Indore Municipal Corporation. A few photographs taken during the collection drive are given below.
